Overland Suites

ACCESS DOORS.

You will not need a key to Access the apartment. All access doors open through a type-in code we will provide you at reception during your check in. This code is newly generated at your arrival and will be valid throughout your complete stay.

There are three Access doors:

Street Access Door

This is a timber door allowing you into the building.

The code to open this door is the four digit code on your card and followed by #.

Patio Access gate (metal railing gate)

This gate remains open. In case you may need to open it, the code is the same as the “Street Access door” above.

Apartment door

This is the door leading into your apartment from the distribution corridors of the building. The code to open this door is the four digit code on your card and followed by #, the same you use to access the building (Street Access Door above).

Overland Suites

INTERNET ACCESS

The Access to the internet throughout the whole building is Wireless through (WIFI) or directly connecting your laptop to the network port available in your apartment living-room.

To connect, you should go to “Settings” on your device, then “Wifi” or “available networks”. Once there, you may find:

Network: **Apartahotel Argote**

Password: **argote13**

These Access data will remain unchanged throughout your complete stay.

If you need to borrow a network cable, you can ask for one at the reception desk.

Overland Suites

ROOFTOP TERRACE

The rooftop terrace is located on the third floor. It remains open all days between 10.00 and 21.00.

During these hours please feel free to enjoy it. We kindly request you behave decorously and respect our other guests, particularly around lunch time as well as night time.

Please refrain from using loud music players which could disturb other guests. Please use the terrace furniture respectfully with our other guests and try to leave it tidy and organized when you leave. We unfortunately do not have full-time staff attending the terrace.

Overland Suites

AIR-CONDITIONING AND HEATING

All apartments have AC and heating in all rooms.

The control panel is located at the living-room on the wall.

Overland Suites

CURTAINS AND BLIND

All windows can be covered and blacked out for a proper rest. You can manually and effortlessly operate the curtains and blinds yourselves.

To operate the fold-up blinds (venetian blinds) please use the cords on one of the sides. You may just need to smoothly pull the cord up or down to your preference.

All curtains slide freely either side by simply pulling them.

Overland Suites

WASHING MACHINE

The washing machine is in the kitchen and concealed at low level and behind one of the door panels.

The maximum washing load is 7 Kg (around 15 lbs) and are loaded through the front round opening door. To open it, please pull out from its lever. Once the clothes are in, make sure you closed it properly by checking it “clicked”.

- 1.- SOAP DISPENSER
- 2.- CONTROL PANEL
- 3.- DOOR LEVER

At the top left hand side you can find the tray for the soap and the softener. There are three different compartments:

- 1) Pre-wash soap compartment (left)
- 2) Washing soap compartment (center)
- 3) Fort the softener, right most compartment

The next step is to choose a program and the water temperature by using the Rolling control son the right hand side. The listing of the washing programs is visible above the soaps tray. Once the machine has finished with the washing program, you will need to wait (up to 20 seconds) until you can open the front round door since the water may still pressure block it. Please refrain from trying to force the door open.

- 1.- CHOOSE A WASHING PROGRAM
- 2.- SHORTENING THE FINAL SPIN DRYING
- 3.- OPERATING MODE KEY
- 4.- EXTENDER WASH KEY
- 5.- START / PAUSE KEY
- 6.- DELAYED START KEY
- 7.- WASHING-PHASE DISPLAY

Overland Suites

MICROWAVE

The microwave is placed in the kitchen sitting on the kitchen worktop. Please use it for heating and cooking foods. Its power is 1000 W for oven-grilling and 800 W for microwaving. Its size is 20 litres of volumetric capacity.

Please use the plastic cover you may find inside the Microwave and check the crystal plate is sitting properly in place.

Start by placing the food inside the microwave, cover it suitably, close the door/hatch and choose power lever (9 different levels) and cooking time. Please do not introduce any metal item inside the Microwave.

Overland Suites

TV

The TV is placed fixed hanging on one of the walls of the living room.

The TV is 40 inch sized, 100 Hz and easy to switch on and off using the remote control.

The TV also has USB ports on one of the sides may you need to connect any device to it.

Cable T.V. with international channels also available.

TV REMOTE CONTROL

Overland Suites

KETTLE

The kettle or water boiler can be found inside one of the top closets at the kitchen. You can use it to prepare a hot beverage of meal. Please note: you can only heat water in it; it is the only liquid or substance it is meant to heat.

It is an electric appliance, you will need to plug it to a power socket. To fill it with water, remove the jar from the base. Once filled, place it back on the base and switch it on. The light display will turn on. When the water is boiling, the light will turn off. Please handle with care and using the jar handle. Please beware that the other surfaces of the jar may be very hot.

Overland Suites

COFFEE MACHINE

The coffee machine, KRUPS – Nescafé Dolce Gusto – uses capsules. It is placed inside one of the top closets in the kitchen.

It is an electric appliance, you will need to plug it to a power socket. Fill in with water the top compartment. Lift up the lid with the –Nescafé Dolce Gusto- logo. Introduce the coffee capsule and close the lid pushing it back down.

Press the “Switch On” key on the side. Once the water is heated, place a cup or a mug on the serving tray and under the coffee dispenser. Release the lever to the right to get the coffee and release it to the middle when enough. Once the coffee has been poured, switch the machine off and please remove the capsule from its compartment.

Overland Suites

TOASTER

The toaster is kept inside of the top closets in the kitchen. These are only meant for toasting and heating bread. It is an electric appliance so in order to use it, you will need to plug it to a power socket.

Insert the bread loaf through the top slots, select a heating option with the timer Wheel at the side, and push the side lever down. Once it's done, the tray with the bread will spring upwards. PLEASE DO NOT INSERT ANY METALIC ITEM INSIDE THE TOASTER WHILE THE APPLIANCE IS STILL PLUGED TO THE POWER SOCKET.

Overland Suites

IRON AND IRONING BOARD

The iron is kept inside the narrow tall compartment in the kitchen together with the ironing board. It is very important the use of the ironing board when you use the iron to prevent damaging the clothing items and/or the furniture in the apartment.

It is an electric appliance so in order to use it, you will need to plug it to a power socket. Fill in the water-compartment of the ironing machine with water.

Adjust the central dial to the type of clothing and the suitable temperature.

CERAMIC HOB

FRANKE two-burner ceramic hob.

Tactile control system. Buttons are located at the bottom of the plate.

During the use of the ceramic hob, the fire that has been used will remain lit in red. After use, and once turned off, the plate will remain hot until the red turns off.

To clean the hob it is necessary to wait until it cools. Do not use nonspecific products for this type of surfaces.

Please keep in mind that the plate is of glass and, therefore, must be treated with care. Any sudden blow can cause a break.

It is necessary to make sure, once finished its use, that it is turned off correctly, pressing the button on/off.

Overland Suites

REFRIGERATOR

Zanussi refrigerator is located at one of the ends of the kitchen, integrated behind a vertical gray door.

It is necessary that the machine is properly plugged in for the correct use. When connected, the interior light will turn on.

Insert the items wanted to keep cold inside the refrigerator and close the door.

Keep the temperature always in an intermediate zone through a wheel located inside, with a numbering from 0 to 5. It should be between 2 and 3, depending on the internal load for optimization.

Overland Suites

EXTRACTOR HOOD

Located in the kitchen, over the glass ceramic, hidden in the upper cabinet, we find the extractor Hood. It is an absorption hood, which serves to trap grease, smoke, odors, heat and air vapor by filtering and evacuating the air.

When cooking, it is advisable to keep it on until a reasonable time after finishing in order to avoid fumes and odors in the apartment.

It is activated by extracting it, as if it were a tray. To stop it is necessary to enter it again.

Overland Suites

SOFA BED

The sofa bed, for a greater comfort of our guests, is based on a single bed and an extra bed, which is extracted from the bottom of the sofa, sliding.

The lower bed legs automatically open by lifting the ends of the bed case.

Overland Suites

HAIR DRYER

The hair dryer is located in the bathroom. It has a power of 1600W and several positions.

The hair dryer cannot be wet and must always be plugged in for use.

It has two external elements, one for curly hair and one for smooth hair. To use, place on the air outlet when the dryer is switched off. It is necessary to make sure that it is well secured.

The air that expels the dryer is hot, be careful and do not approach it.

Overland Suites

WC FLUSH

The WC flush is embedded in the Wall, on the toilet.

The flush is divided into two buttons, one smaller and one larger.

The small one, which is situated on the right, has a lower water load and the larger one has a higher water load, to adjust to the needs.

Overland Suites

LIFT

The lift is located after the courtyard, on the right. It is not allowed to use in case of fire.

In case of power outages, the lift will not be operational.

If there is any problem with the lift, please contact us. If possible, also contact the technical service, whose information is inside the elevator.

In the upper panel inside the cabin, is indicated the maximum permissible weight, please respect that weight.

The elevator communicates the ground floor, first and second. If you want to access the communal terrace, go up to the 2nd floor and take the steel staircase on your left.
